

ARMANTA TARIGAN

DATA ANALYST

with foundational skills in data visualization, SQL, and Python. Currently building practical knowledge through coursework and bootcamp training to drive data-driven insights.

ABOUT ME

I am a fifth-semester student in the Faculty of Information Systems, with a current GPA of 3.56, showcasing my commitment to academic excellence. Alongside my studies, I'm actively participating in a bootcamp to become a data analyst. I believe my skills and curiosity align well with this field, making data analysis a natural fit for me. Through both my academic journey and practical training, I am dedicated to refining my analytical abilities and expanding my understanding of the data-driven world.

SKILLS AND ABILITIES

- Data Visualization (Excel, Python, Looker Studio, Tableau)
- SQL and Database Management
- SQL and Database design
- Data Analysis (Python)
- Python Programming
- Good communication skills
- Highly skilled in teamwork

EDUCATION

[Tarumanegara University] - Faculty of Information Systems

Fifth Semester (2022 - Present)

GPA: 3.56

EXPERIENCE

Since I'm currently studying and gaining hands-on experience through a bootcamp, here are some highlights of my data projects:

Data Analysis Projects

- Developed data visualizations using Excel, Python, and Tableau to analyze customer trends and provide actionable insights.
- Created interactive dashboards with Looker Studio, supporting data-driven decision-making.
- Designed and managed databases using SQL, optimizing queries for efficient data handling and analysis.

Bootcamp Data Projects | Bootcamp Participant(Current)

February 2024 - Present

- Conducted data analysis using Python and advanced Excel techniques, applying statistical methods to derive insights.
- Utilized SQL extensively for data querying and organization, enhancing the accuracy and efficiency of data processing.
